A sound roof does more than protect the things you value. It protects the people you love. And when you feel safe, you're free to focus on the important things in life. Like entertaining friends and hosting family gatherings. That's why your choice of a roof is no small detail.

W H Y P U T E L K P R O D U C T S
O N T O P O F Y O U R H O M E ?

You can have confidence in the way Elk Prestique® and Capstone® shingles are constructed. Our shingles are laminated for extra durability and protection (see page 14). UL® wind resistant and Class "A" fire rated, they meet the current standards of the most stringent local building codes.

Elk offers premium roofing products with either a wood-shake or slate-like look: Prestique Gallery Collection™, Prestique Plus 40 High Definition®, Prestique I 35 High Definition, Prestique 30 High Definition, Prestique 25 Raised Profile™, and Capstone 40. Each provides outstanding protection and is designed to enhance the look of your home.

Prestique I 35 High Definition in Sandalwood.

Prestique shingles have either Elk's distinctive *High Definition* or *Raised Profile* look. This gives them a rich dimensional appearance that adds depth and texture to a home's roof. The result? The addition of Prestique shingles is one of the best ways to improve your home's visual appeal and market value.

Prestique I 35 High Definition in Hickory.

T H E P R E S T I Q U E G A L L E R Y
C O L L E C T I O N B Y B A R T F O R B E S

The Prestique Gallery Collection features timeless hues whose rich appearance reflects the splendors of the natural world. These color blends are the result of our collaboration with internationally acclaimed artist Bart Forbes. Mr. Forbes used his artistic touch to help us create colors that are unique, yet in harmony with their surroundings. Prestique Gallery Collection *High Definition* shingles have a 40-year limited warranty and up to a 110 mph limited wind warranty. Perfect your masterpiece with color-matched roof accessory paint and ridge products (see page 12).

A B O U T T H E A R T I S T

Bart Forbes is a world-renowned artist whose distinctive artwork has appeared in the pages of Time magazine and other widely circulated publications. He is famous for his themed paintings and has designed 20 commemorative postage stamps for the U.S. Postal Service, including the "America the Beautiful" series.

sienna sunset

In parts of the great Southwest, a surreal blend of red rock and starlight creates awe-inspiring views. This ever-changing palette was the inspiration behind Sienna Sunset. In a fusion of orange and brown, it seems to glow with the early-morning or setting sun. Sienna Sunset's rich cinnamon hue evokes the colorful look of terra cotta tile, making it the perfect complement to stucco tones and most brick colors.

weathered sage

On the Baja peninsula, the smell of the sea mixes with the scent of dozens of varieties of sage brush. Further inland lies an enormous dry lake bed called Laguna Diablo. This sun-blistered playa was the inspiration behind Weathered Sage. Its khaki hues are reminiscent of sun-baked mud, with just a hint of warm green. A true neutral, Weathered Sage complements a broad range of exterior colors.

balsam forest

In New England, there is a balsam forest bounded by gorges and swift rivers on one side and steep cliffsides on the other. As the sun sets, the rugged landscape casts long shadows over the trees below, creating pools of rich, dark green. Balsam Forest recreates these same hues, making it well-suited for a myriad of home styles.

C A P S T O N E 4 0 R O O F I N G

Do you miss the romance of days gone by? Then Capstone 40 roofing is for you. Designed for homes with prominent roofs, Capstone 40 has a classic slate-like appearance. It creates an indelible impression of deep shadows, particularly on homes with steeper roof profiles. The word "timeless" can be applied to both Capstone 40's cottage look and its performance. It's made with Formula *FLX*™ which makes it easier to install and reduces the risk of blow-off. We're so confident of its superior performance, we gave it a 40-year limited warranty and up to a 110 mph limited wind warranty.

Capstone 40 in Granite.

Capstone 40 in new Village Green.

Capstone 40 in Fossil Grey.

R I D G E P R O D U C T S

Elk hip and ridge shingles form a protective cap along the ridges of your roof, improving its look. They're available in colors that match our Prestique, Capstone 40, and Prestique Gallery Collection shingle colors. Hip and ridge shingle preferences vary regionally. That's why Elk offers a choice. Ask your contractor which hip and ridge treatment is right for you.

Z Ridge and Prestique Plus 40 in Shakeswood.

Z* RIDGE PREMIUM HIP AND RIDGE

Z Ridge is guaranteed to put an end to boring rooflines. Its unique, folded design creates a high-profile cascading effect down the length of the ridge.

RidgeCrest adds an extra dimension to this roof of Prestique Plus 40 in Weatheredwood.

RIDGECREST™ HIGH PROFILE HIP AND RIDGE

The rustic, sawtooth-appearance of RidgeCrest imparts a crisp wood-like look to ridges. RidgeCrest is made with Formula FLX and is available in both vented and non-vented form. Vented RidgeCrest features a one-piece shingle design and is an integral part of a roof's attic ventilation system.

Seal-A-Ridge with Formula FLX adds a distinctive element to this roof of Prestique Plus 40 in Forest Green.

SEAL-A-RIDGE® WITH FORMULA FLX

Seal-A-Ridge hip and ridge shingles provide extra protection against leaks and wind blow-offs. Their 12" x 12" size is perfect for standard or most shingle-over ridge vents.

F I N I S H I N G T O U C H E S

STAINGUARD® TREATMENT

In some areas of the country we offer our built-in StainGuard treatment — now with a 10-year limited warranty. Check for availability in your region.

ROOF ACCESSORY PAINT

Elk Roof Accessory Paint is specially formulated to help vents, flashing and other accessories blend in with your new Prestique, Capstone 40 or Prestique Gallery Collection roof.

ELK WEATHER VANE

Crafted in metal and hand painted, this distinctive weather vane is a working piece of art (\$75). To order one for your home, visit www.elkcorp.com, ask your contractor or call Elk at (888) 401-4488.

C H O O S I N G A C O L O R

For best results, your new roof should complement your home's exterior. When choosing a color, consider how it will blend with your home's brick, stone, wood and/or paint colors. Before making a final selection, you should view five or six full shingles in natural daylight at a distance to get the full impact of the blending of colors and patterns. Keep in mind that the appearance of a shingle color may vary depending on conditions and time of day. For instance, it will appear different in direct sunlight than it does in overcast conditions or wet weather.

We make every attempt to represent our product colors as accurately as modern printing technology allows. Nonetheless, we always recommend you view actual shingles before making a final color choice.

ELK SHINGLE ANATOMY

A shingle looks like a simple object, but many different elements are combined to create the dimensional look of Prestique, Capstone and Prestique Gallery Collection shingles.

SHINGLE COMPOSITION

Chemically-inert granules for protection from the elements

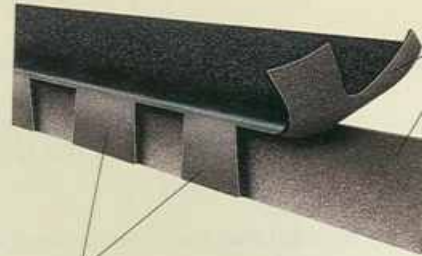

Layer of thick asphalt for superior waterproofing

Second layer of thick asphalt is your assurance of outstanding protection

Fiberglass base resists rotting, warping, curling and fire

Exclusive bottom layer of granules (Prestique Plus 40 and Prestique Gallery Collection only) for exceptional thickness and beauty

THE LAMINATION PROCESS

Two layers of fiberglass-reinforced asphalt are laminated into a single unit

Three-dimensional, random-cut sections enhance shadows

COMPARISON OF SHINGLE TYPES ORDINARY SHINGLES VS. ELK

Ordinary three-tab shingles are so flat and thin they allow roof deck imperfections to show through.

Elk Prestique Plus 40 High Definition shingles mask roof deck imperfections and give the same home a more distinctive look.

WOOD SHINGLES VS. ELK

Wood shingles, though more expensive, can burn, split, warp and curl. Little wonder then that untreated wood has no warranty at all.

Elk shingles have a fiberglass base that meets ASTM D 3462 standards. Warranted for up to 40 years, they avoid the problems of untreated wood and are UL Class "A" fire rated.

THE MANY LOOKS OF ELK SHINGLES

PRESTIQUE HIGH DEFINITION
Prestique Gallery Collection, Prestique Plus 40, Prestique I 35, and Prestique 30 have this deep shadow effect. Its impressive definition enhances any home's appearance and value.

PRESTIQUE RAISED PROFILE
This rich dimensional look is found on our Prestique 25 shingle.

CAPSTONE
These shingles have a slate-like dimensionality that creates an impression of deep shadows, especially on steep roofs.

ELK WARRANTY COMPARISON

* The forty-year limited warranty for Capstone 40 and the thirty-five-year limited warranty for Prestique I 35 apply only to shingles sold after July 23, 2001.

† See product limited warranty for details. Special high-wind application technique is required for 110 mph limited wind warranty.

Product limited warranties can be obtained from the distributor or www.elkcorp.com.

Limited warranties may be registered online or through the mail.

Due to factors over which Elk has no control, such as weather conditions, quality of installation or construction, the useful life of a given roof may be more or less than the length of the limited warranty period applicable to the shingles.

SUMMARY OF BENEFITS

FEATURE:	WHY IT'S IMPORTANT:
Excellent limited warranties with Umbrella Coverage	Superior protection and peace of mind
Premium laminated fiberglass-reinforced asphalt construction	Years of exceptional performance, sealing out damaging rain, sleet, ice, snow, and wind
UL wind resistant and Class "A" fire ratings	Highest protection against wind and fire damage
Meets the requirements of ASTM D 3462	Meets or exceeds all current local building codes

PRODUCT AVAILABILITY

Just as foliage and building materials vary from region to region, so does the preference for certain roofing colors and ridge products. Elk manufactures select products to meet the needs of specific regions.

Colors are available in all Prestique products unless otherwise noted below.
Product selections and color offerings are subject to change without notice.
